DisplayKEY is retired!

The MLS®/CLAW

Please read carefully.
This affects your business.

The MLS®/CLAW retired your Supra DisplayKEY. No more cradles!

Before you come to The MLS®/CLAW office you will need to decide which key device you prefer. You may choose the new ActiveKEY, or have us add eKEY software to your smartphone or PDA. If you already have a device on the certified devices list, or have been thinking about getting a smartphone, you may want to consider making it your lockbox key rather than carrying two devices.

To help you make the right decision for the way you do business, you will find the following resources included in this flyer. For a chart comparing you options, see page 2. For a list of eKEY-certified devices, see page 3. For more on ActiveKEY, see page 4. If you need help with your decision, please call Supra Agent Services at 1-800-676-7603.

If you are choosing ActiveKEY

The ActiveKEY does not require a cradle to keep itself updated, but it needs to be charged, just like your cell phone. Optional car chargers will be available on site at the special event rate of \$19.95 plus tax, payable by Check, Visa, MasterCard, Discover or American Express credit card, or by debit card with the Visa or MasterCard logo.

To add new eKEY service to your smartphone

You will be asked whether you want eKEY Basic, or eKEY Professional service. eKEY Professional allows you to search the MLS from your device, links Google maps to the listings, and delivers showing details to your device. eKEY Basic has just the lockbox functions.

The monthly fee for eKEY Basic is \$10.95 plus applicable tax and the monthly fee for eKEY Professional is \$20.95 plus applicable tax. In addition there is also a one time programming fee of \$50.00. You may set up your monthly eKEY fees with a Visa, MasterCard, Discover or American Express credit card, or a debit card with the Visa or MasterCard logo.

Compare cost and convenience

ActiveKEY	Dedicated wireless key - separate device
eKEY Basic	Basic KeyBox functions - software on a device you are already carrying
eKEY Professional	Adds MLS searches, maps and showing details to KeyBox functions One device to carry - do business anywhere

	ActiveKEY	eKEY Basic	eKEY Pro
KeyBox Functions			

Compare features

- | | | | |
|---|---|---|--|
| • | • | • | Open iBoxes, release shackles, read keyboxes and view showing agent name and phone number |
| • | • | • | Prompt to assign KeyBoxes after opening iBox shackle |
| • | • | • | Read showing notes left in iBox after opening key container |
| | • | • | Customize iBox access hours, program notes, flyer, business card into iBoxes/read others when open box |
| | • | • | Track iBox inventory and view iBox settings on key device |

Showing Activity

- | | | | |
|---|---|---|--|
| • | • | • | Receive showing alert on key (smartphone eKEY only) and email when iBoxes are opened |
| • | • | • | View showing activity details on KIMweb |
| | • | • | Send showing feedback to listing agents from key device |
| | | • | View showing details and feedback on key device |

MLS Information and Searches

- MLS info stored on device; no booting up or wireless search needed
- Search MLS listings five ways (Address Search is used the most)
- Create and save buyer profiles and comparative searches on device
- View Hot Sheets with new listings and changes on the MLS in last three days
- Google maps connected to listings (smartphone)

Smartphone becomes lockbox key!

Add Supra eKEY software to your smartphone and enjoy one less gadget in your pocket or purse. Ask your Board, Association or MLS whether eKEY Basic or eKEY Professional service is offered in your area.

Each smartphone below has been tested and certified as compatible with Supra eKEY software. Certified devices fall into four families, using the Palm operating system or Windows Mobile 5.0 and later.

ActiveKEY

ActiveKEY is the **first wireless lockbox key** designed by real estate professionals for real estate professionals. ActiveKEY **keeps itself updated 24/7** through frequent cellular connections to the Supra network. Virtually no attention is required from you.

When an ActiveKEY opens one of your iBoxes, you receive a **real-time instant notification on your key**. You know right away when someone has entered your listings! For details, you will log on to KIMweb at the Supra website.

ActiveKEY is easy to use. Simply scroll through the ActiveKEY menu and follow instructions displayed in a small window. Enjoy lots of **friendly features** including a **built-in flashlight** and a **brightly lit keypad and display window**. The ActiveKEY comes with a power cord, a mini-USB cable and a **clip-on pouch with a pocket for your business cards**.

The ActiveKEY is a **dedicated lockbox key** manufactured by GE Security. It is not a cellular phone, nor a text-messaging device, and you cannot add software to the ActiveKEY.

The ActiveKEY **needs to be charged, just like your cell phone**. An optional car charger is available to make sure your ActiveKEY is on hand and ready to go whenever you need it.

For additional information on ActiveKEY, log on to www.supraekey.com and scroll down to the ActiveKEY link in the center of the page. Or simply [click here](#).
