NEW! The MLS i-FAXMAIL™ Cover Page!!

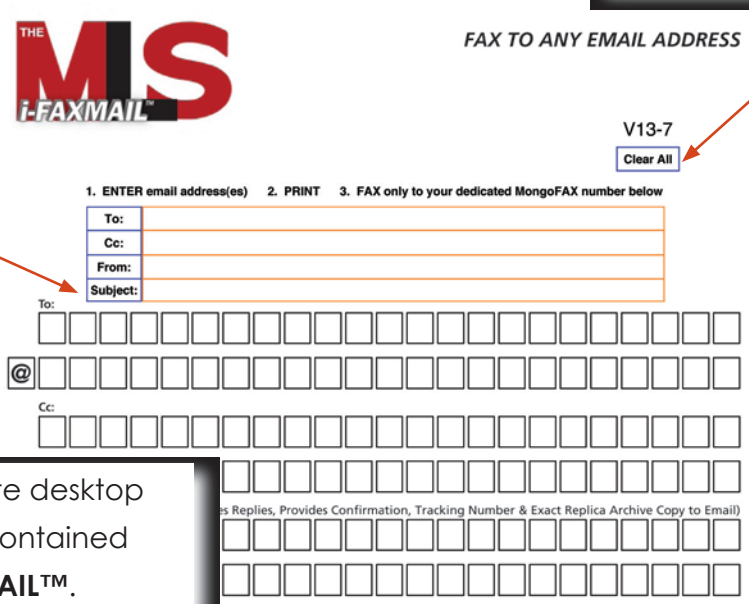
As of 1/15/2008

Are you taking advantage of The **MLS i-FAXMAIL™**, an electronic service that turns your faxes into scanned PDF email attachments?

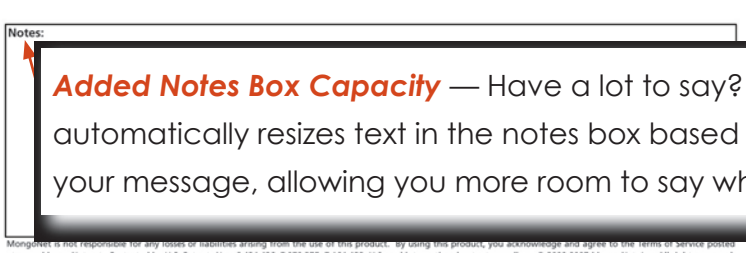
Using **The MLS i-FAXMAIL™** saves time and makes it easier to organize important documents. Now, **The MLS i-FAXMAIL™** is even more powerful introducing several new features! Here is what to expect from the new cover page:

"Clear All" Button — Need to start your message from scratch? One click does it all.

Subject Line Field — When you type a subject line in this new field, you'll be able to deliver, search, and easily organize your scanned **The MLS i-FAXMAIL™** by subject. It works great with email searches.



Searchable Scans — Use your favorite desktop search tool to search for keywords contained within your scanned **The MLS i-FAXMAIL™**.



Added Notes Box Capacity — Have a lot to say? The new cover page automatically resizes text in the notes box based upon the length of your message, allowing you more room to say what you need.

Bar-Coded Accuracy — Industrial strength bar-coding is generated with every print job, ensuring the accuracy of your typed cover page.
